About mothercare

Mothercare, started by Kim Hin International (KHI), began trading in Singapore in 1984. Today, we have 11 stores island-wide. With the largest range of mother and baby equipment in Singapore, we showcase a comprehensive and wide variety of products ranging from children's furniture, strollers and car seats, to baby & kids' fashion and toys.

Here at mothercare, we pride ourselves on having both the products and the people to assist our customers in this rewarding experience, called parenting. In 2019, we revamped our mega store located at HarbourFront Centre to feature our first experiential concept store globally. The 10,000 sqft store promises shoppers a visual and tactile experience that will help them make better purchasing decisions. The incorporation of 'real life' elements – such as stroller test tracks, weighted baby dolls, and airplane overhead cabins – allow shoppers to properly test out products before purchasing them; inspirational nursery room sets let parents envision how the new additions to their nests may look like.

About Made For Families

Launched in June 2020, "*Made for Families*" is a new brand mark that represents the different ways - big and small - in which Singapore supports families. An initiative by the National Population and Talent Division (NPTD) in the Strategy Group, Prime Minister's Office, *Made For Families* aims to assure families in Singapore of support from the government and community at large. We also hope to call out to more employers, corporate and community partners to contribute, and collectively build a conducive ecosystem that supports families in Singapore.

Employers, corporates and community groups can apply to adopt the Made For Families brand mark if they have implemented family-friendly practices at the workplace, and/or offer initiatives, programmes, products or services that facilitate child-raising and help parents to manage parenthood. Businesses that help to ease couples' financial concerns about having a child and defray child-raising costs, such as by offering discounts on essential items / services can request to be considered Made For Families. Government programmes that help couples marry, start and bring up their families will also be identified as reasons why Singapore is Made for Families.
